THE CANADIAN LEGION HELD SUCCESSFUL REUNION

The tenth anniversary of the signing of the Armistice was made the occasion of a most enjoyable reunion by members of the Local Branch of the Canadian Legion.

A company numbering close on sixty, attending, did full justice to a fine "spread," washed down by the product of the brewery, provided by the capable Entertainment Committee under the Generalship of Comrades J. A. French and H. McGregor. Comrades A. V. McPartland and C. Keeling gave an exhibition of their skill at opening bottles—the result of years of intense study and practice.

The company, full of cheer and other good things to eat, eased their belts, and leaning back in their chairs, gave their attention to the toast list. "His Majesty's Health" being drunk, Comrade, the Rev. Capt. Muncester, in a moving appeal, gave the "Silent Toast" to those left behind. A. A. Moore, when called on to propose the toast to the Legion, gave a fine exhibition of how an editor can make a speech in the best traditions of the press. The Provincial Secretary, Comrade Art Waleby, replying, detailed the work of the Legion, giving instances of the hard ships encountered, the assistance given, and the many benefits that had been won, especially in regard to pensions, by the organization.

Introducing the guest of the evening, the President stated that Comrade L. C. G. Wright was no stranger to us, having already favored us with his services in "filling the breach" at our Morgan's Burning ceremony. Taking the National Anthem as his subject, the Colonel delivered one of the finest addresses given in the hall in many a long day. The speaker was followed with rapt attention and the hearty applause which terminated in a few broken dishes, was an indication of how much the address was appreciated. The desire for more means that arrangements will be made to again hear him in the near future.

In spite of a cold, Comrade H. Patrick, marshalling his forces, led the community chorus. We are glad the master has just been replaced. Comrades W. Springthorpe, P. Kearns, S. H. Griffiths and P. Wright were in fine form as soloists, while Comrade G. H. Brown cast a spell by tooting the flute.

Just as the gathering were in a most happy mood, the President informed them that a serious task lay ahead, a capital charge having been made against one of our members, and that a trial would proceed.

The prisoner proved to be Comrade J. Pawkes, who was charged with "murdering the King's English" on September 21st. Comrade S. H. Crowther acting as judge appeared in flowing robes, his sparsely covered head being graced with a magnificent growth of wool in the shape of a wig. Comrades D. N. Gardiner and P. Ray, Prince, doing black nightgowns, acted as the prosecuting and defending counsels, while Comrade W. Springthorpe showed the experience he had gained as bailiff, in giving assistance in the case of a defendant who was charged as Clerk of Court. Great difficulty was experienced in selecting the "right good men and true." The counsellers came pretty near to blows with their objections. Members of usually fine character had their reputations torn to shreds. For instance, Comrade W. S. Patterson was rejected on the grounds that his knowledge of the English language was insufficient.

Witnesses called for the prosecution gave evidence in favour of the defence and took the oath of "telling no truth" in a manner that showed it was not the first time they had evaded the question. For instance, A. A. Moore with his hand on his own person (where his heart was sworn on each) that his presence was that of School Principal and that a cat was some sort of a thing that went to school with the Municipal Secretary.

Other witnesses had even greater flights of imagination, Comrade D. S. Shrimpton being the only one who came in for a kind word. The statement that the grocery business was the most honourable being unemployed. Waving his arms like a menaphe, the prosecuting attorney blazed everybody's character including his own, for he got back in the face of his argument home with a pun directed on the table, made an impassioned appeal for a verdict of guilty.

Comrade P. Ray, Prince, certainly knew his groceries. His silver tongue brought forth tears of mirth to the jury. His definition of the prisoner's character made one feel certain that he had wings and must be an angel. Summing up, the judge wisely remarked that everyone had been tried but the prisoner, turned a deaf ear to the jury's request for more beer and instructed them in their duties.

The foreman, Capt. Muncester, called a sensation in the hall when he delivered the verdict of "Guilty," and the judge, looking as was as an owl, delivered his sentence until December 22nd. Peace was restored and the evening of merriment was continued until morning.

We hear it on good authority that the majority of the neighbours are still arguing the merits of the case over the back yard fence. D. N. Gardiner offers reward for a law look he lost. The general opinion is that he has swallowed it.

E. Wilson and J. Sharp were in town, looking for a reward for a law look he lost. The general opinion is that he has swallowed it.

TOWN COUNCIL HELD REGULAR MEETING

VOLUNTEER BRIGADE DESTROY WEEDS

One block, one block, all in the roadway role and walked the brave fighters "Forward," commanded Chief McPartland, and in extended order, into the Valley of Weeds near the curling rink, marched Bill Bie's volunteer fire brigade, with water tank and chemical equipment. Quickly the torch was lighted by John Taylor and Jim Weir. Harry Miner, Jas. Saunders and Fred Anderson with wet socks, ready for instant action, stood to attention, while Percy Wright remained at the wheel, or tank, ready to ride or walk into the very jaws of death if needs be.

This did the volunteer brigade on Wednesday morning attack the burning of weeds on the vacant lots, the menace of which has caused Council Bill Bie to almost sweep buckets of "moss" when he thought from day to day of the serious menace, and real hazard that existed, and the thanks of the corporation should be expressed to these men for their real community work.

Inspector McGregor Sr., was also on the job in the vicinity of the Crown Hunter Co., representing a section of the "Home Guards". The Fire Insurance Companies might very well remember these volunteers at Christmas time for the work in reducing the fire risk in the town. Will they do it? Maybe!

GATENBY BUSINESS SOLD TO LIBIN BROS.

During the month of November the Gateway Department Store, having been conducting a closing sale, owing to the health of Mr. Gatenby, which compelled him to get out of town, came down and looked over the business, making Mr. Gatenby an offer which was accepted, and the new firm will take over the store after December 1st.

Miss Ruth Secher was the guest of Mrs. H. McGregor during the week end.

"Don't you love to see the sun?" said the pishing guest.

"Yes, I mean I'm about through work," replied Jim Swanson.

O Tuesday night a regular council meeting was called for 7 o'clock, but when the appointed hour arrived, the members found His Worship Mayor Shrimpton and Deputy Mayor, G. C. Quirk, absent.

After giving the matter full consideration, and securing the opinion of their temporal adviser, T. M. Weir, they decided that all would be well with Councilor Ridsen acting as deputy. This proved very sound advice.

Councilor Ridsen, with all the grace and dignity of Henry Wise Wood, assumed his newly acquired position, and within a few minutes, had business under way in no uncertain manner, and had Councilors Bailey, Miner, Saunders, and Taylor upon their toes to keep up the pace.

The minutes of the last meeting were read, and upon motion confirmed. The Secretary reported that he had notified the Minimum School Tax delinquents that November 26th was the last day of grace for payment, after which date they would have to settle with the bailiff.

An offer was received from the School Board with cheques attached for \$25 for building recently sold to R. Bailey. Councilor Bailey reported that he would not require the building this year, and was quite agreeable to the Council selling it to the School Board for use as a stable, upon motion this was done. Oliver Wright tendered his resignation as Janitor at the Town Hall, effective in thirty days. A couple of applications for a position were received, but no action taken until the next meeting, in it is hoped all the members may be able to be present.

A letter from Land Surveyor Har, of Calgary, was read in regard to making survey of land at the Bailey Boulevard corner, stating that he will try and make survey this Fall, and if not, early in the spring.

It was decided to have a new sign painted, directing the parking of cars at the cemetery during funerals. The condition of some of the sidewalks, caused by the action of driving heavy trucks over them, was reported, and instructions given to have same repaired, and the offenders warned that any further repetition would result in a prosecution.

The matter of keeping the water main to the curling rink in good condition during the winter season was discussed, and arrangements for draining the pipes completed.

The matter of seeing that everything in fire equipment was kept in working order, and regularly inspected was discussed, and it was decided to have the regular care of Councilor Ridsen in his efficient capacity as chairman of the Fire and Light Committee.

The alarm of the fire bell at street lights was left over for further consideration.

The current accounts for lumber and for insurance upon members of the Fire Brigade, amounting to \$252 were ordered paid.

Council adjourned at half past nine, so that Councilor Miner and some others could possibly have arrived home early, no matter what kind of a yarn some of them put up when they got home. It wasn't the council meeting.

SPORT NOTES

ROGER HORNSBY'S SALARY

CHICAGO—Roger Hornsby, former manager of the Boston Braves, arrived in Chicago to sign his contract with the Chicago Cubs. The greatest slugger of the National League will receive \$32,000 for his 1929 services, according to reports here today. This is the same figure he was receiving at Boston, from which club he was obtained last week in a deal involving a reported figure of \$125,000 and five Cub players.

CANADIAN BUYS THOROUGHBREDS

LEXINGTON, Ky.—Harry C. Hatch, Toronto distiller, acquired three thoroughbred brood mares at a big sale conducted at the stables of Harry Payne Whitney. The trio cost him \$29,100.

The horses and their prices he paid for them follow:
Paisant, \$12,500; Strickling, \$9,000; and Roaming, \$7,600.
The 24 brood mares brought an average of \$12,700. Paisant brought the top figure.

CLERGYMAN RETRACTS BASEBALL ACCUSATIONS

A candid statement by the Rev. J. L. Belford, of Brooklyn, has saved the good name of baseball. The threatened scandal in the national pastime has fallen flat. Charges made by the divine in an editorial in which he asserted the Huguenots allowed them to be defiled in August and September last in order that the American League race would be closed and that the Giants' last season charged with throwing a game to Brooklyn have been retracted. An apology, accompanied by a frank statement in which the clergyman said the editorial was made upon hearsay, has been made and all hands were satisfied. In connection with the affair, which was never regarded seriously by league officials, it is gratifying to know they made a thorough investigation without the customary publicity. Colonel Rupert, of New York, and President Heydler of the National League urged Judge Landis to take cognizance of the charges. Quietly the learned jurist slipped into New York and conferred with the Brooklyn divine. Satisfied there was no malice in the charges made, or any foundation for them, Judge Landis returned to his home. Even the New York scribbles were unwary of the investigation. Shortly after Judge Landis left the city an editorial appeared in the same church publication in which the original charges were made retracting the accusations and apologizing for the error. And so another promised sensation fails to materialize.

WILL LOUGHRAN SUCCEEDED TUNNEY?

If the nomination of a new champion could be left to a popular voting contest it would be one of these new, hard and clean campaigns between John the Dempsey and John the Risko, with stronger party lines behind the Dempsey.

But Mr. Rickard has scorned the scheme of electing a new champion as being without profit or reason and he has dug into the files for the plans and specifications of several elimination tournaments that were well planned in the past but failed only because of improper material. He thinks he has the proper material now in John the Risko, Tommy Loughran, Signor Paulino, Knute Hansen, Ad Warren, Jack Dorval, Les Martin, Otto Von Forst and the twenty black horses that Jimmy Bronson has threatened to deliver from the stocks.

You will observe that in the calling of the roll of available material the name of John the Dempsey was not mentioned. And for reason. Dempsey, you can bet, will not lower the dignity of a former king by mingling in an elimination tournament and the survivor of those eligible who will agree to be eliminated will have to meet Dempsey next summer. And then to make matters more complicated, the scholar will come out of a retirement if there is anything in the card that looks like a million-dollar prize or better. The scholar will not fight for chicken feed or marbles.

Makes It Tough

It would be comparatively easy to figure the possibilities in the elimination tournament if that Risko didn't happen to be in there. That fellow simply refuses to be beaten and his job is to knock off the more fancy fighters when they get up there just ready for the steam pipe from Rick-

ard's ballyhoo furnace.

If it were not for that Risko, Tommy Loughran would be by far the best looking prospect in the whole bunch. But, even if he did have the conviction that Risko could beat Tunney, we have the same bunch that Loughran would beat the Cleveland baker in a match where there was great big dough and a future at stake.

Might Make Difference

Loughran lacks only a damaging punch to be a better champion than Tunney ever was. Tunney grew into his punch and as Loughran is a very young man and a growing young man it is possible that he will grow into a stronger kick. Loughran isn't so heavy and added weight might slow him up but he says he can do 180 pounds now without weighing down, and that's plenty.

Sharkey is the only one of the bunch that a punch. But he lacks the spark to inspire him in his moments. Tunney and a lot of others say he is yellow. But we don't believe it. It is a fact, however, that he can't rise to big moments and there is no reason to believe that he will suddenly fall into an inspiration when he never had it before.

Takes Too Many

Paulino is another Henry with a stronger punch but you can't win decisions by taking them on the law unless you are fighting two hundred rounds.

WHY THEY KEEP AT GOLF

He topped his drive from number one. Resulting in a roller. And about his mauling to the green. Took seven or he held it. And two mayhap he cussed a bit. It only made him bolder.

On number two he tore a slice into a swampy thicket. The ball fell in a hollow log. From thence he had to pick it. And even while growling at his luck. He vowed that he could lick it.

He hooked one badly down at three. Then on into the bunker. And clipped and dug for fourteen strokes. Till finally he sunk 'er. All those who saw him at his task. Could swear he was no funker.

At four and five the divots flew in manner quite alarming. At six and seven one would think He was exalted in farming. At eight he missed so many that The air got quite a warming.

But when on nine, his driver struck Like lightning on the rubber. And on in tow toward the pin As he's steered by a rader! Three hundred yards—a single stroke! He holed out in another!

His palpitating heart proclaimed The joy that wallow brought him; And he told his fate a hundred times To those fans who sought him. And that is why man keeps at golf When once the "bug" has got him!

ALBERTA BEEF IS SUPERIOR TO ARGENTINE

VANCOUVER—Western Canadian cattle are superior to the beef stock of the Argentine, according to E. C. Harper, long a resident of the South American cattle country, who was in Vancouver recently after visiting the cattle ranges of Alberta and British Columbia.

"The Western Canada crasses must be responsible," he said. "I have seen a good many of your ranches and the best in the Argentine can show you nothing."

Seek New Markets
Stock raising was carried on on a large scale in the Argentine, Mr. Harper stated, and the country supplied 60 per cent of the chilled meat trade of Great Britain. They were seeking new markets now, for England could not take any more of this side of beef. Stock fed all the time on alfalfa and all the year round. Conditions were such that there was no winter feeding laid out.
The Argentine was also specializing in wheat, importing Canadian seed and the Rio Marquis species. Science was being introduced into this side of agriculture and generally speaking the industry was in an excellent way.

Mediaeval Mystery Play Revived

The Empress Hotel, Victoria, the beautiful grounds of which will be brilliant with holy berries during the season of rivalry, being arranged as an old English Christmas festival.

I imagine Christmas in England in 1328, four years. The dawn of the Reformation was all but breaking, but the Church still held place of power in state as in religion, and had been for centuries the fount of all learning. A primitive age—rough and relentless, and ill-people were primitive to a degree hardly conceivable in this age. Rough hard living was lightened by rough hard play and such church festivals as Christmas were celebrated in carousing and high revels by those as could command the means for such enjoyment. Religious teaching came to the mass of the people only by word of mouth, and as a means of making the New Testament stories living and understandable, incidents of the Bible story were presented in simple plays as primitive as the understandings of their audiences. They were called Mystery Plays and one of the first of them, and, therefore, perhaps, the first of all plays to be performed in England was the story of the adoration of the shepherds and the Magi, written by Randall Higden, a monk of Chester Abbey and first performed at Christmas in the year 1328, just six hundred years ago.

From that day to this is a long time, but there has been a revival of interest in the beautiful things of mediaeval days, and a few years ago the Chester Mystery were brought to Canada and presented for the first time in America at Hart House Theatre, Toronto University. There they met with instantaneous success, and for several Christmases were a feature of Toronto's holiday celebration. Later they were presented as part of a Christmas service in the church of the St. Mary Magdalene, Toronto. It will next be seen at Victoria, B.C., as part of the old English Christmas celebration, that is being arranged to take place at the Empress Hotel this year.

It will be the central feature of a notable revival of the Christmas customs of England dating from the middle ages down to the time of Dickens and Mr. Pickwick. In the costumes of that period, singers, actors and musicians will, between Christmas and Twelfth Night, lead the revels and the entire celebration will wind up with a costume ball. Victoria is already famous as a winter resort. Its mild, pleasant weather permitting golf and motoring practically every day and its wonderful bathing water swimming baths have made the most English city in North America an ideal place in which to spend the winter, and with the programme of Christmas revels it is likely that the number of visitors to the city from the prairies and from some of the western states will be unusually large.

Ben Tillett: "God help the man who won't marry until he finds a perfect woman, and God help him still more if he found her."

NIGHTINGALE

On November 15th, supper was served at the Hall, with about seventy-five present. After ample justice had been done to the lovely eats provided by the U.F.W.A. splendid addresses were given by H. W. Leonard, Harvey Hanson and E. J. Garland. Mr. Leonard outlined the special work that had been accomplished by the U.F.A. Mr. Hanson dealt very fully with the need of cooperation among the farmers, and how they should look after their own interests; while Mr. Garland very cleverly presented the picture of what united work could accomplish, which result it was impossible to achieve through individual effort. He strongly urged support of the local organization. The Local U.F.A. was re-organized with the following officers: President, H. W. Leonard; Vice-president, L. C. Siskinor; Secretary, E. M. Stoddy.

The Masquerade Dance at Nightingale held on Friday last was a real success from the standpoint of attendance, and there were a large number of splendid costumes. The music provided by the Strathmore orchestra was excellent. The committee wish to especially express their thanks to all who came in costume; to the Judges for their difficult task in making awards; and to the young men who assisted in serving the supper. The Judges were: Mrs. Rosted, Arden; Rev. T. D. Wray, Mrs. Chamberlain, Mr. Taylor and Guy Melvin, of Strathmore. The prize-winners were: Best-dressed lady, Mrs. Malcolm, of Calgary; in a Persian costume; best dressed gentleman, Louis Gordon, Spanish-Torador; best comic, Bert Griffith; best old lady; best original, Ed Griffith; a comical lady; flapper, half shell; best home-made costume, Mrs. Robert Putnam, U.S.G. Elevator; Fred Joe, Paul Elevator, arrived too late to get the eye of the judges, but made a wonderful hit with the ladies, even though he did not get in the prize winners.

ACTIVE WORK IN TELEPHONE DEPARTMENT

Continued expansion of its service through the province during the month of October is reported by the Department of Telephones. An increase of 125 stations in operation is shown for the month, bringing the total increase for the first ten months of 1928 up to 2,790. In the Peace River and Grande Prairie districts new offices have been opened at McEwen, Nampa, Wankarem and Prossville and a new long distance line connects Grande Prairie and Wembley. It is expected that an exchange will be opened shortly at Fairview and that existing equipment will be moved to new townships at Hivry, Beaverlodge and Bluey.

A new office has been opened at Turner Valley and at the new townsite of Mallard on the Donnyville extension of the C.N.R. Continuous service was initiated at Halkirk on October 1st. As for the last she had what the heck she did with that new pair of gawd shodges of mine. Saturday—Vivie is a finger finger out a set of signals for are it ball team. It was a very complete. I had set out signals and I had been time except they were so complicated that we was the only ones who could understand them, so we have decided not to use the signals because even though Mr. & Mrs. V. is Capt. and mrs. we ain't the only ones who can't understand them.

Sunday—I saw Aggie at church to day so when I got home and having nothing else to do I decided to call her up on the phone & talk awhile. When she found out he it was a real I wish to goodness you was quit bothering me, anyhow I can't stand freckle-faced boys & I think you are terribly homely goodby. Sometimes I wish that girl wasn't so crazy about me.

Monday—pa went to a re Union tent and when he got home he said wear in the world has you been wearing a wreck. Pa said so that awhile I have been solidating for dere old Alma Mater. Ma looked at him suspicious like and said. Now tell me the truth who is this Alma person and wear did you meet her. Pa had a awful time explaining.

Wednesday—gess pa will haf to give up trying to catch mister Moran in sum of his story. 'Tontie mister Moran was telling him about a fishing trip he went on, he said "now on the particular fishing trip" and pa buttoned in and said "oh yep, you was fishing for wates wasn't you?" oh no Mr. Moran said we was baiting are hooks with wates."

Thursday—Ant Emmy takes the prize for being the dumbest woman I ever seen. 'Tontie pa had a business trend home for supper and the man got to talking about his life history. He said now I was a mere boy of 12 yrs. I was left a orphan. Ant Emmy piped up and said yep yep & what did you do with it.

WEDDING

MARRIED AT REDLANDS

A very pretty wedding took place at Redlands, Alberta, on Thursday, November 8th, when Helen Ruth, only daughter of Mr. and Mrs. Wilson Humphries of that place, was united in marriage to Nicholas Charles, son of Mrs. Hart, of 312 1/2 Ave. West, Calgary.

The ceremony was conducted by Rev. G. Albert Love, of the Church of St. Francis, Calgary, and was attended by numerous local friends as well as a number of friends of the family from Edmonton, Alberta, where they had formerly resided.

The bride's father gave her away in the marriage ceremony.

At the close of the ceremony the guests were entertained to a bounteous wedding repast, after which an enjoyable period was spent in various toasts. The toast to the newly married couple was responded to by the groom in an interesting speech, and that to the parents, by Mr. Humphries, in his usual quiet and effective manner. The toast to the victors was replied to by Mrs. Merrill and Mrs. Duncan, of Edmonton, and to the ladies by Messrs. Prater, Wishart and Clarke.

The happy young couple presently took the evening train amid much gaiety, journeying eastward to their new home at Edmonton, Alberta, where Mr. Hart is manager of the Pool Elevator.

HEARD ON THE STREET

Policeman: "Now then, come on! What's your name?"
Speeder: "Demetrius Aloysius Hephworth, alias John the Bulgarian."
Policeman: "None of that, now. It's your name I want, not the family motto."

Mistress: "Why, Jane, how in the world did you come to break that vase?"
Jane: "Well, you see, mum, I was accidentally dusting it."

The announcement by the dress designers of Paris that the short skirt must go, naturally raises in the mind of mere man accustomed to the ups and downs of life, the question: "Which way?"

"My word, your daughter is growing fast."
"I don't believe she is any worse than the other girls."

Alice: "And how did you like the Shakespeare Club?"
Aggie: "Wonderful! Why, I made three grand slams at the last meeting."

Aunt (a nervous passenger): "Aren't you ever afraid you'll lose control of the car?"
Daredevil nephew: "Constantly. I'm two instalments behind already."

"Yep," said the timid passenger to the aeroplane pilot. "I understand I'm to sit still and not be afraid and all that, but tell me, if something happens and we fall, what do I do?"
"Oh, that's easy," said the pilot. "Just grab anything that was passing and hang on."

Minister: "I wish to announce that on Wednesday evening the Ladies' Aid will have a rummage sale. This is a chance for all the ladies of the congregation to get rid of anything

that is not worth keeping, but is too good to be thrown away. Don't forget to bring your husbands."

A ladies' fashion note says: "For evening wear a large chiffon handkerchief is carried. Well, everybody thought it would eventually come to that. Next year the handkerchiefs will likely be shortened, and this is worrying Bess Bartlett of the Blair more Enterprises."

A Calgary office man was dictating a few days ago, and was in doubt as to the use of a certain phrase, so he said to the typographer: "Do you retire a loan?" and the wistful eyed one interrupted rather sleepily, "No, I sleep with mama."

The "Pullman Cabin" was in question, as usual in the smoking room of the westbound train out of Strathmore one night recently. "How's this for a story," chimed in Tony Grogan. "It's about a couple in Ottawa who recently celebrated their silver wedding anniversary. Among the guests was a young Frenchman. His face, bearing the young chap asked a neighbor: 'Tell me, now, cher, what sees their silver wedding with we celebrate, I do not understand.' 'Oh,' replied his neighbor, 'don't you know? Why, this couple, our host and hostess, have lived together for twenty-five years without having been separated and—' 'Ah,' he returned heartily, a light breaking upon him. 'And now, he marry her? Bravo. Bravo!'"

A Negro preacher drifted toward politics in his sermon. He warned his congregation to remain quiet where it might help repeal the Eighteenth Amendment:

"Let 'em once get started repealin' those 'mendment,' let 'em, 'em, 'em, all don' know where it stops. Mobbe next de seventeenth, and de sixteenth 'mendment' is repealed. Mobbe dey repeal de fourteenth 'mendment and de thirteenth 'mendment, and den where is yousall culled broden an' slaters, gwine to be?"

"John Vermont reminds me of Richard Strauss."
"But Strauss is no a singer."
"Nor is John Vermont," said Casey Nearing.

"There ought to be only one head to every family," declared the earnest speaker in the club.
"That's true," agreed a little man, standing by the mantelpiece, making figures on a piece of paper.

"You agree, do you?" asked the first man, with a smile.
"Indeed I do," was the answer. "I've just paid for hats for nine daughters."

He: "Mother Goose rhymes are so expressive of life."
She: "I think so too."

He: "Now, 'The one jumped over the moon,' for instance, always makes me think of the stock market."
She: "Naturally, but it makes me think of vanishing cream."

"Does your husband give you an allowance, or do you ask him for money when you need it?"
"Both."

Father: "Was seen by Mother to go Billy home from his baseball playing. An hour later they came in together."
"Was he safe?" Mother cried.
"Safe a mile, but the umpire called him out!"

"Why didn't you bring him home?"
"I tried to, but the shortstop made a great catch."

Paddy Customer: "I don't like the look of that madstock."
Butcher: "Well, madam, if it's looks you're after, why don't you buy a goldfish?"

She: (discussing author's looking individual): "Has he dedicated any of his books to his wife?"
He: "Only one."
She: "Which one?"
He: "His bank book."

She: "Are you interested in the jorpechorean art?"
Frank Clutchie: "Why bother with that? Come on, let's dance."

Teacher: "Give an example of a collective noun."
Vin Moran: "Vacuum cleaner."

"Remember when the family circle was at the fireside?"
"Yes, but it's at the steering wheel today."

"He appears to be a man with pronounced convictions."
"Yes, he's a judge."

Waiter: "Have you ordered anything, Sir?"
Diner: "Well, I asked for strawberry cream, but that was such a long time ago, you'd better change it to Christmas pudding."

A young fellow from Strathmore had his sweetie out one night last week and happened to replace his arm around her. Constable Harrison happened along and hollered: "Hey, young fellow, use both hands! Whereupon the young man shouted back: 'Well, who's going to drive?'
Constable Harrison: "Search me, but do as I tell you."

NINE POUNDS WOOL PER SHEEP VICTORIA'S AVERAGE

MELBOURNE, Vic.—Australia possesses less than one-sixth of the sheep in the first few years it was in Victoria 14 pounds of wool from each sheep. In 1850 it had increased to three pounds, by 1870 to five pounds, and at present the average yield was sixteen pounds of wool, according to A. S. Kenyon, engineer of the State Rivers and Water Supply Commission of Victoria. The country is now approaching a production of 1,000,000,000 pounds of wool, and the pastoral industry, in wool and mutton, is worth nearly £100,000,000 a year.
Even more remarkable than the rapid increase in the flocks, declares Mr. Kenyon, has been the increase in the yield of wool from each sheep. Kenyon, engineer of the State Rivers and Water Supply Commission of Victoria. The country is now approaching a production of 1,000,000,000 pounds of wool, and the pastoral industry, in wool and mutton, is worth nearly £100,000,000 a year.
Even more remarkable than the rapid increase in the flocks, declares Mr. Kenyon, has been the increase in the yield of wool from each sheep. In the first few years it was in Victoria 14 pounds of wool from each sheep. In 1850 it had increased to three pounds, by 1870 to five pounds, and at present the average yield was sixteen pounds of wool, according to A. S. Kenyon, engineer of the State Rivers and Water Supply Commission of Victoria. A THOUGHT FOR THIS WEEK
It is heaven upon earth to have a man's mind move in charity, rest in Providence, and turn upon the poles of truth.

A NEW POLITICAL STAR IN QUEBEC

The election to the Quebec legislature in a by-election in a Montreal seat of Camille Houde, mayor of the city, may mark the emergence of a political figure of importance. The Conservatives of the province, who have been minus leaders with attractive power for a quarter of a century and hoping that in him they have found their Moses. The Montreal correspondent of the Free Press writing of Houde, says:

"Who is this little round man who can hold a thousand French-Canadians in the hollow of his hand while he plays on their emotions? Who is this Camille who is fast winning the personal admiration that French Canada pays so generously to its heroes? Who is this new light of the race when the premier (of Quebec) and cabinet fear so much that the whole battery of the cabinet and the secretary of state for the Dominion are brought into the fight against him?"

"Camille Houde, mayor of Montreal, who defeated M. J. B. Martin last April after every prophet had said that Martin was invulnerable and could not be defeated as mayor, was born 38 years ago. He lives in the congested east side of the city and St. Mary's division, for which he has just been chosen provincial member, claims him as her own son. He lives in Logan St. among a hundred other homes for working men without ostentation and the honor of the majority sits lightly on his shoulders. A little five-room flat in which the kitchen and the parlor are equally popular is his home and the suggestion that he should leave his upstairs flat in crowded Logan street and find an official home suburbally by admirers to house the mayor of Montreal was turned down coldly. He is a plain blunt man without false pride who has been in politics for only four years and has not yet grown rich or connected. Youth is on his side and his natural gifts will take him far. But little Camille will always be a fighter and he will never lose his smile. How far will he climb? At least he is worth watching."

EXPENDITURES NOW
SEEN IN A
DIFFERENT LIGHT
The Manitoba Free Press says that Ontario now has some \$200,000,000 invested in highways, according to Premier Ferguson, who intimates that they are a credit to the province. He declares that, after travelling extensively in Europe and in the United States, he is proud to say that Ontario has the best highways to be found anywhere in the world. Ferguson from Florida to California are united in their tribute, he says, and he estimates that tourists will spend \$250,000,000 in Ontario next year.

Let's see, who was it that initiated the aggressive highway policy in Ontario which has led to the present condition of which Mr. Ferguson is so proud? Was it not the Government of Hon. E. C. Drury, Mr. Ferguson's predecessor? And did not Mr. Ferguson and his party make their main attack on the Drury Government on the ground of spending too much money, particularly on better roads for the province?

The Drury Government was turned out and the Ferguson Government continued the active good roads policy, and Mr. Ferguson regards the result as exceedingly satisfactory and creditable.
